We are a family-based dairy goat farm with registered Nubian, LaMancha and Saanen milking does. We also have mini Nubians and mini Saanens in the breeding program.

We offer herd shares for raw goat milk and cheese. Other products available can include keifer, yogurt, fudge, cheesecake and more goodies.

We also offer goat milk soap made with pure, therapeutic grade essential oils for long-lasting scents and therapeutic aromatherapy benefits. These oils are used across our farm as a first choice prior to using chemicals or medicine on the animals. Contact us or see www.mastertouchhealth.com for further information on our oils.
